- Logistics and package solutions

***FLEXIBILITY  
AND POWER  
WHEN YOU  
NEED IT***

# Extensive expertise

MEGA FLEX has many years of experience in industrial service and we are as the name indicates, very flexible, even for the most demanding jobs.

We have both skilled and unskilled personnel with up-to-date experience from almost all branches of industry. They are ready to perform a wide variety of specialised jobs and they are always willing to adapt to current needs as they arise.

## MEGA FLEX has an extensive range of machinery and equipment at its disposal:

- Sweeping machines
- Mini bobcats
- Industrial vacuums
- Central suction systems
- Fresh air systems
- Conveyor belts

## One section of our work includes:

- Industrial cleaning
- Furnace construction
- Duct cleaning
- Special works
- Waste management
- Crane cleaning
- Fitting
- Boiler cleaning
- Facade cleaning
- High rise ascents

## Security and proper working conditions

We are members of the Confederation of Danish Industry (DI), as well as the Danish Construction Association (BYG), and we have entered into collective agreements with all relevant trade unions. It provides security for your company and employees that all current labour legislation rules are followed in terms of working hours, wages, etc.

Please note that we are pre-qualified with SELLIHCA.

MEGA FLEX's concept ensures that all jobs are carried out by highly qualified and motivated personnel, both in terms of management and performance of the job.

**We apply the ISO 9001 standard. That obliges us to deliver high quality.**
